

ABOUT THIS PROJECT

The Manitoba Public Gardens list is a collaborative project between two local volunteer organizations; Gardens Manitoba and the Manitoba Master Gardener Association.

For over 50 years, Gardens Manitoba has been raising funds within the community to promote horticultural activities and events.

Manitoba Master Gardener Association is an organization of certified Master Gardeners who support their communities through volunteerism and horticultural education.

Both groups have come together to recognize the beauty of the province and share it with its visitors. This is the first iteration of the list with the hopes of it evolving into a book.

To volunteer, attend a presentation or learn more about either of these organizations, visit their websites:
